About me

Hello! I'm Melany, a Full-Stack developer and UX/UI designer. I love combining both disciplines to bring amazing projects to life. I'm always looking to surpass my own limits and learn something new every day. In my opinion, teamwork is the key, as it allows us to share knowledge and enrich ourselves with the experiences of others.

Education

- Self-taught (always in constant learning)
- Full-Stack Course (2023)
- UX/UI Design (Completed at Coderhouse in September 2023)
- OpenBootcamp (Certifications: HTML & CSS/JavaScript 2022)
- Completed secondary education (focused on Communication)

->Key skills:

As developer:

- Specialized in front-end
- Knowledge in back-end

As a UI/UX designer:

- User-Centered Design
- Creation and validation of MVP through a research-based approach.
- Heuristic analysis
- Wireframing and development of functional prototypes.

->Skills:

Full-stack

- HTML5
- Css3
- Sass
- Javascript
- ReactJs
- NextJs
- Git
- GitHub
- Tailwind
- Trello
- Node js
- Express js
- SQL
- MYSQL
- Docker
- TypeScript
- Testing

UX/UI Designer:

- Figma
- FigJam
- Optimal Workshop

->Languages:

- Spanish (native)
- English(Intermediate)

Experience

->As Developer:

- Currently working on an E-commerce project for a business in Mar del Plata (full-stack team project for MDP Program).
- New Portfolio (Designed in Figma and created with Next.js - In progress).
- Personal Portfolio: Created with React.js using i18n, react-router-dom, framer-motion, react-icons, Tailwind, and Getform. Implemented useStyles and componentization for cleaner and more organized code. It includes personal projects such as a UI/UX design project, a weather app, a movie app, a task list, and CRUD operations.
- Participation in a sports app using: React.js, Redux, react hooks, CSS, Sass, react-router-dom, i18n, Bootstrap, Tailwind, Postman, Axios, BEM methodology, Git, GitHub, Trello, and Scrum. Design replication from Figma templates required for each view. I also implemented useStyles and componentized for cleaner and more organized code.

->As a UX/UI Designer:

- Personal Portfolio, responsive design created with Figma (in progress).
- FlickFlow: A movie and series recommendation application that facilitates user search by showing the platforms where they are available. Created with design thinking methodology

Personal Skills:

- Creativity
- Teamwork Ability
- Adaptability
- Empathy
- Positive Attitude

Hobbies

- I enjoy knitting while listening to music, chatting, or having mate.
- I savor a good book at times, accompanied by a cup of coffee or tea.
- I like engaging in daily physical activity.
- I listen to podcasts, with a preference for personal growth genres.
- I love spending time with friends and being outdoors (occasionally breathing in fresh air).
